Bucks (to Wit.)—*To Her Majesty's Justices of the Peace assembled at the GENERAL QUARTER SESSION OF THE PEACE, to be holden at AYLESBURY, in and for the said County, on MONDAY, the 4th Day of JANUARY, 1875.*

THE ANNUAL REPORT

OF THE COMMITTEE OF VISITORS ELECTED AT THE EPIPHANY SESSION, 1874, FOR THE PURPOSES OF THE LUNATIC ASYLUM, AT STONE, FOR THE PAUPER LUNATICS OF THE COUNTY, UNDER THE STATUTE 16TH AND 17TH VICT., CAP. 97, SS. 22 AND 62.

SHEWETH,—That your Committee report, in the terms of the Statute, that the “State and Condition” of the Asylum have been satisfactory throughout the year, and the accommodation is sufficient and proper for the number of Patients.

The conduct and efficiency of the several Officers and Servants are satisfactory.

The full number of Patients on 17th December, 1874, the day of the last meeting of your Committee, was as follows ;—

	M.	F.	TOTAL.
County Patients.....	131	211	342
Out-County Patients.....	9	20	29
Private Patients.....	9	6	15
On Probation: Pauper Patients (County)	0	2	2
„ Out-County Patients ...	0	1	1
On Leave : Pauper Patient (County) ...	0	1	1
Gross Total.....	149	241	390

The number of County Patients in the Asylum, at the corresponding period of the year ending 18th December, 1873, was 344.

The number of Patients admitted since the commencement of the year has been :—

	M.	F.	TOTAL.
County Patients.....	22	36	58
Out-County Patients.....	7	17	24
Private Patients.....	7	0	7
Gross Total	36	53	89

The amount per head per week, charged to the Unions in the County having Patients in the Asylum during the four quarters, has been a uniform rate of 11s. 1d., being an increase of charge of 5¼d. per head per week as compared with that made for the year 1873. This increase is caused by the continued high price of Provisions, Coals, and other necessaries, and the rate of Maintenance may be considered as moderate in amount.

The following is a table showing the cost of the Maintenance :—

TABLE SHOWING THE COST OF MAINTENANCE.

Column 1 contains the Cost of Provisions consumed by the Patients.
 „ 2 the Cost of the Fuel and other necessaries.
 „ 3 the Cost of Clothing, Utensils, Surgery, Garden, and Miscellaneous Articles, after deducting the Receipts of the Establishment.
 „ 4 the Amount of Salaries of Officers and Servants, and Cost of Provisions consumed by them.

	1.		2.		3.		4.		Total of Columns Nos. 1, 2, 3, 4, being the Total Cost on which the rate of Maintenance of the Patients is calculated.	Rate of Maintenance per Patient per Week.	Rate of Charge on the Unions per Patient per Week.	Aggregate Number of Days' Maintenance of Patients.
	Cost of Provisions consumed by Patients.	Rate per Patient per Week.	Cost of Fuel and other Necessaries.	Rate per Patient per week.	Cost of Clothing, Utensils, Surgery, Garden, and Miscellaneous Articles, deducting Receipts.	Rate per Patient per Week. 1869	181	240	421
1870	186	240	426
1871	141	208	349
1872	137	212	349
1873	152	224	376
1874	149	241	390

Two of the Commissioners in Lunacy visited the Asylum on the 24th of November, and the following is a copy of their report on that occasion :—

BUCKS COUNTY ASYLUM,

November 24th, 1874.

This Asylum has been the subject of our Inspection to-day. Having visited every Ward in each Division, the Offices, and Artizans' Shops, we are enabled to report that great cleanliness and good order prevails throughout the building. On the Male side there is an empty ward, which will accommodate 25 patients or thereabouts; the Female side, and both Infirmary day rooms, however, will soon require extention; the day rooms especially referred to are in truth much crowded. The bedding was everywhere good; the dormitories which we first visited were (our arrival being somewhat early) in the hands of the bed makers,

but free from any offensive smell. Painting and papering will soon be necessary throughout the Male division, and we are glad that this work is contemplated to commence in spring. We agree with our colleagues in the desirability of the laundry improvements suggested by them last year. The floor was to-day very sloppy, and certainly should be relaid. The washhouse is too limited, and the safety of the Patients calls for partitioning off of the machinery. Two or three cupboards have been put up on the Male side of the Asylum for brooms, mops, &c., but too many of those articles are still in the lavatories and elsewhere, within reach of patients of each sex. The number of patients on the books is now 392, an increase of 15 upon those here when our colleagues visited towards the end of last year. They comprise 151 Males and 241 Females. To-day one man and three women were absent on leave—all the rest we saw. There are 131 Males and 214 Females—together 345 paupers chargeable to the County of Bucks and its Unions; 9 men and 21 women out-county patients; and of the private class, 11 Males and 6 Females. The weekly maintenance charge for Bucks Lunatics of the pauper class is 11s. 1d.; the out-county pay 16s., and the private patients are charged variously from 12s. up to a guinea, exclusive of their clothes. The changes among the patients, since last visit, when tabularly stated, stand thus:—

	M.	F.	TOTAL.
<i>Admitted</i> —County	23	35	58
„ Out-County	6	17	23
„ Private	7	0	7
	36	52	88
<i>Discharged</i> —County.....	8	20	28
„ Out-County.....	3	4	7
„ Private	6	1	7
	17	25	42
<i>Died</i> —County	19	10	29
„ Out-County	0	1	1
„ Private	2	0	2
	21	11	32

Five inquests have been held in the current year. The verdicts in two cases attributed death to natural causes. Two of the deceased were epileptics, found dead in bed, having accidentally suffocated themselves, and so the Jury found; and the suicide of a woman was the subject of the fifth inquiry. Her death was reported to our office at the time, and no further light has since been thrown upon the event, by ascertaining through whose negligence, or by what means, she got access to the attendant's room, where she found the scissors with which she stabbed herself. The patient who had a pass-key giving access to the room still retains that key, and the Superintendent is of opinion that the door of the attendant's room was not left unlocked through any default of that patient. The cases of suffocation of epileptics in bed point strongly to the necessity for adoption of the system so generally followed now in Asylums, of collecting the patients of each sex suffering from epilepsy in separate dormitories on each side, and there placing them throughout the night under the supervision of an attendant sitting up amongst them. There are structural difficulties in carrying out such a course here, but we trust that they will not be insuperable. Some of those who suffer from epilepsy (the worst cases) are now brought together, and have the special attention of the night watch, but this arrangement is not the most perfect for the safety of such patients. A night attendant sits up in a dormitory on the female side, where sleep 10 very suicidal and one epileptic patient. Very few, if any, of the present male patients are believed to be strongly suicidal.

The register of deaths yields no other matter of remark. The post-mortem examinations have been 10.

Nowhere in the Asylum during our visit was there any exhibition of noisy excitement; no person was under restraint or in seclusion, and the behaviour of all was exceedingly proper. The clothing of both sexes was tidy and sufficiently warm, and such of the patients as are of dirty habits appear to be well attended to in regard to personal cleanliness. The staff of men and women

nurses has been increased, and now consists of 14 males and 20 females; of these 2 of each sex are on duty at night. We are glad to learn that another female attendant now remains to look after the women unable to attend chapel in wards 8 and 12 (about 30) when the rest go to divine service. The general health of the patients appears to be good, making proper allowance for the aged and congenitally infirm; six men and seven women were in bed as we passed through the wards, but several of these only on account of senile debility. The records tell us 11 males and 22 females are taking medicine. No man has been restrained, but a woman once for one night only, her hands having been tied for surgical reasons. Seclusion has been resorted to for 11 men on 36 occasions, of whom one was 9 times, another ten times so treated, the reasons for which have been duly entered. Nine females have been also secluded altogether on 27 occasions; of these one was 15 times so treated. We were not present at dinner time, but tasted the soup in the kitchen prepared for that meal to-day, and found it excellent. Fish provided once a week is here, we understand, most popular with the patients. The returns made to us of employs show that 89 men and 120 women are usefully occupied; of the former, 27 work on the land, 13 at trades, and the attendance at chapel is an average of 83 men and 72 women—on Sundays rather a small number. The usual recreations and walking exercise are given, and there seemed to be a sufficient supply of books, &c., in the wards for the use of the patients. It will be seen from the foregoing remarks that the Asylum is in a satisfactory condition, and that the welfare of the patients is studied in its arrangements.

(Signed)

CHARLES PALMER PHILLIPS,	} Commissioners
ROBERT NAIRNE,	
	} in Lunacy.

SUPPLY OF WATER.

Your Committee found during the late Autumn manifest signs of a decrease in the supply of water from the "Willow Spring," so much so that they thought it necessary to make

enquiry whether it would not be proper to obtain a supply from "The Chiltern Hills Spring Water Company (Limited)," but the expense of laying down the service pipes under the road from Aylesbury to Stone, which the Company would not undertake to do, was so great that your Committee relinquished the idea for the present.

Your Committee have also subjected the water now in use to the County Analyst, who reports that it is not only very hard, but also far from pure, so as to be even in his opinion unfit for domestic use.

It may be a question, therefore, whether it will not be soon necessary to enter into further negotiations with the Chiltern Hills Company, so that, in combination with others living, or about to live, in the neighbourhood of Stone, some satisfactory arrangement might be made.

Your Committee have also considered the recommendations of the Commissioners in Lunacy, and hope to be able to meet their views without extensive structural additions.

In the Appendix No. 1 will be found an Abstract of the County Treasurer's Accounts, as to the repayment of instalments of the principal monies borrowed and the interest thereon.

In the Appendix No. 2 is shown the amount expended in Repairs, and also the Additions, Alterations, and Improvements, under sec. 38 of the Statute.

In the Appendix No. 3 will be found a General Statement and Balance Sheet of the Maintenance Account.

And in the Appendix No. 4 will be found an Abstract of the Garden and Farm Account for the year 1874.

It is now the province of the Court of Quarter Session to appoint a Committee of Visitors of the Asylum for the ensuing year, pursuant to the 22nd sec. of the Statute.

(Signed)

PETER THOMAS OUVRY,
Chairman.

MEDICAL SUPERINTENDENT'S REPORT.

TO THE COMMITTEE OF VISITORS OF THE PAUPER LUNATIC ASYLUM
FOR THE COUNTY OF BUCKINGHAM.

GENTLEMEN,

I beg leave to submit to you my Report for the past year, showing the changes which have taken place in the population of the Asylum during that time.

On the 20th of December, 1873, the number of patients in the Asylum was 371, the males being 149 and the females 222. Since that date there have been admitted 89, of whom 36 were males and 53 females. The average number resident was 374, and there were under care and treatment during the year, a total of 460 patients, of whom 185 were males and 275 females.

As regards the physical condition of those admitted, 24 only were in fair or good health when received, 56 were in feeble bodily health, while 9 were very ill. In nearly one-half of the admissions there was a propensity to self-destruction, several having attempted suicide before being sent to the Asylum.

During the twelve months there have been discharged recovered 28 patients, of whom 11 were males and 17 were females. Estimated on the number admitted, the per centage of recoveries is therefore 31.46. This proportion is below the average for some years past, and is due partly to the admission of a large number of incurables, and partly to the impaired health and reduced condition of the patients when received. Seven of

the inmates have been discharged as improved, and given up to the care of their friends, two left as not relieved, and four were removed to other County Asylums. Nearly the whole of the patients discharged as recovered, or as improved, had been previously sent out on probation for a period of one or more months; and, where required, a weekly allowance of money had been given.

The mortality during the year amounted to 31—21 deaths having occurred among the men, and 10 among the women. Calculated on the total number under treatment, the proportion has been 6.73 per cent., and on the average number resident 8.28 per cent. An analysis of the obituary register gives the following causes of death:—Cerebral or spinal disease, 17; diseases of the lungs, 4; diseases of the heart, 2; chronic albuminuria, 2; erysipelas, 1; general debility and old age, 4; suicide, 1. The average age at death was—males, 49 years; females, 54 years.

Coroner's inquests have been held on five occasions. In the first instance on a woman 28 years of age, who had been admitted only two days before in a deplorable state of exhaustion, and who died of syncope in the interval between the night attendant's visits. The second case was that of a man aged 73 years, who fell dead suddenly from ossification of the aorta. The third and fourth cases were two epileptic patients, who were found dead in their beds, having been suffocated by rolling on their faces whilst in fits. The fifth was a case of suicide, the woman having gained access to the Nurses' Room during their absence at chapel, shut herself in, and having found the key of the chest of drawers, proceeded to unlock them, and with a pair of scissors which she had taken therefrom, she stabbed herself in the neck, wounding the common carotid artery. The particulars of these cases were submitted to you, and to the Commissioners in Lunacy, and you sanctioned the appointment of a second night attendant on each side of the Asylum, so as to render the inspection of the patients more frequent. A third night attendant has also been engaged during the last six months, her duty being to watch the most

suicidal cases, and 3 epileptic patients collected in a small dormitory of 12 beds. It is to be regretted that the area and situation of the dormitories suitable for this latter class of inmates has hitherto prevented us from carrying into effect the recommendation of the Commissioners in Lunacy, that "Epileptic patients and suicidal cases should at night be under the continual supervision of an attendant, whose sole duty it should be to watch them."

The general health of the patients has been good, and the Asylum has been entirely free from all epidemic or endemic diseases. A married woman was confined on the 3rd of February, and at the end of the month the child was removed by the father; the mother still continues here.

Three accidents have happened during the past year, resulting in each case in broken bones. One patient fell in a fit and broke his arm, another caught his foot in the cocoa matting and fell, breaking his collar bone, while the third slipped on the ice, and fractured her leg. All these cases have recovered.

The inmates have continued to enjoy the greatest amount of liberty and indulgence compatible with their safety and welfare, and under the power given to the Medical Superintendent to grant leave of absence for any time not exceeding a week, 19 patients have visited their homes. In some of these cases the period of leave has (with your sanction) been extended to two or more weeks. All returned punctually to the Asylum, with the exception of 4 private patients, whose friends signed the necessary orders for their discharge.

Deputations of the Boards of Guardians of three of the Unions in this county have visited the Asylum during the year, and have expressed their satisfaction with the state of their patients. While the pauper lunatics of some of the unions are visited pretty regularly every year or two, those chargeable to other Unions in the county are rarely seen except by the Relieving Officer, on his occasional visit here to bring a patient or to remove

one. It therefore seems desirable that the other Boards should also avail themselves of the permission given by the Act of Parliament, 16 and 17 Vict., cap. 97.

The duties of the Attendants and Servants have been, generally speaking, performed in a satisfactory manner, and on the women's side, in consequence of repeated attempts at self-injury, the nurses have seldom had a greater strain put upon their vigilance than during the past year.

No changes have occurred among the Resident Officers of the Asylum, all of whom have performed their duties efficiently, and it is with much pleasure that I acknowledge their cordial assistance in all that concerns the interests of the patients.

I also beg to express my thanks to the Visitors for much personal kindness and consideration, and am,

GENTLEMEN,

Your obedient Servant,

J. HUMPHRY.

CHAPLAIN'S REPORT.

TO THE COMMITTEE OF VISITORS OF THE PAUPER LUNATIC ASYLUM
FOR THE COUNTY OF BUCKINGHAM.

GENTLEMEN,

In accordance with the Rules of your Institution, I have the pleasure, as your Chaplain, of again laying before you the result of my labours during the year.

With regard to my duties in conducting the religious services in the Chapel on the Sabbath, and on Wednesday in each week, as well as the visits in the Galleries, I have humbly endeavoured faithfully to fulfil them, and trust, through God's blessing, they have proved beneficial to the comfort of many of the patients, and to their growth in grace. Some of the sick and dying patients, strengthened by the power of religion, have been enabled to bear their sickness patiently, and to meet death, trusting in God's mercy, through Christ, that it would be to their "everlasting gain." There are, however, some patients (and their number seems to be on the increase) who cannot get rid of the distressing idea that they have committed "the unpardonable sin," and that for them there is no forgiveness—their fear of punishment being confined to this world, and not extending to the future. Of these a few are ever seeking and watching for an opportunity of self-destruction, and require constant supervision. These cases, to which my attention has been kindly called by the Medical Superintendent, I have made my especial study; and though they are very difficult ones to deal with, and my ministrations are apparently disregarded, still I trust God's blessing may rest on my labours, and that "the word" in season "may not return unto Him void."

I beg to assure you that my interest in the work appointed to me shall continue unabated.

I remain, GENTLEMEN,

Yours obediently,

Hartwell Rectory,

CHARLES LOWNDES.

December 14th, 1874.
